UID EX 8 – Ice Cream App Storyboard

AIM:

The aim is to create storyboards representing the user flow for a **mobile Ice Cream ordering app** using Balsamiq.

Procedure

1. **Tool Used:** Balsamiq Wireframes (<https://balsamiq.com>)
2. Created a new project and added mobile screens to simulate the user's ice cream ordering journey.
3. Each screen represents one important step in selecting and buying ice cream.
4. UI components like images, buttons, icons, text fields, and navigation bars were used.
5. The wireframes were kept simple, clean, and easy to understand.

User Flow

1. **Home Screen** – Users can view featured ice creams, offers, and popular flavors.
2. **Flavors Screen** – Displays different categories like chocolate, vanilla, strawberry, and special combos.
3. **Ice Cream Details Screen** – Shows selected flavor image, toppings, size, and price.
4. **Cart Screen** – Displays selected items with total cost and “Add to Cart” button.
5. **Checkout Screen** – Users review their order and confirm delivery details.
6. **Payment Success Screen** – Shows successful payment and thank you message.
